Subject: Catalog Builder Testimonial

Gentlemen,

Here are some comments I received from the field after the release of my new catalog which was created by Catalog Builder:

- Wow – very nice! Best catalog we have had since I have been on board
- The new catalog looks great! Finally we have something substantial to give out to customers!
- They're awesome... What a great book.

Also, my comments: Catalog Builder gives me the ability to quickly update catalogs and, more important, pricing, because it is now in a single data base. My literature creation process just got easier.
